As a Furman employee, you will be expected by callers to know about major events and issues on campus. Callers will also expect you to know which offices handle various requests and issues across campus.

To be an informed employee you should frequently refer to the major sources of general Furman information:

Furman’s main web site is located at http://www.furman.edu. One good idea is to set this page as the default page of your Internet browser if you use a computer regularly. If you do not know how to do this, the Help Desk at x3277 can offer assistance.

From the web site, familiarize yourself with how to reach the Academic Calendar and the Calendar of Events.

Read Inside Furman -- in print and through the Furman web site. Inside Furman is published nine times each year, and offers a variety of general information about the university and its people and programs.
