Architectural Masterworks of Frank Lloyd Wright
An Exclusive Learning Adventure for OLLI Members at Furman University

PROGRAM #22976 | MAY 26-JUNE 1, 2019
Overview

Celebrate the work of legendary architect Frank Lloyd Wright as you visit some of his greatest works in the Midwest. Through discussions and field trips with Wright experts, learn how his work continues to impact modern architecture. Discover Wright-influenced contemporary architecture on city explorations of Madison, Racine, Milwaukee, Oak Park and Chicago with local experts.

About Our Lodging

Hyatt Place Chicago River North, 3 nights
A full service, 4-star hotel – one of the finest in the area!
Delta Hotels by Marriott Racine, 1 night
Conveniently located between Milwaukee and Chicago, this hotel offers a welcome escape from the everyday.
Fairfield Inn and Suites Madison West/Middleton, 2 nights
Situated minutes away from a variety of cultural destinations.

Activity Level:
Keep the Pace

Walking up to three miles and standing for up to three hours. Many of the Frank Lloyd Wright venues are not handicapped accessible and require climbing stairs.

About Road Scholar

Road Scholar’s meaningful—often transformational—educational adventures engage people for whom learning is the journey of a lifetime.

This 7-Day Frank Lloyd Wright Adventure Includes:

• 6 Nights of accommodations
• 15 Meals (6 Breakfasts, 4 Lunches, 5 Dinners)
• 3 Expert-led lectures
• 11 Field trips
• Group travel and transfers throughout the program
• A Group Leader to accompany you throughout the program to handle all logistics
• Customary gratuities, taxes and destination fees
• The Road Scholar Assurance Plan, including 24-hour assistance for medical and other emergencies

Highlights

• Discover Frank Lloyd Wright’s home and studio, considered to be the world’s first example of true modern architecture.
• Explore the SC Johnson Wax Administration Building and Research Tower, one of the 25 most important buildings of the 20th century.
• Learn about the rich history and culture of architecture in Chicago as you visit some of his architectural study cruise of the city from the Chicago River.

Trip Itinerary

Day 1: Sunday, May 26
Check-in, Orientation, Welcome Dinner
Hotel check-in begins at 3 p.m., followed by a Program Orientation and a Welcome Dinner.

Day 2: Monday, May 27
Chicago Architecture, Loop Architecture, Robie House
Today begins with a lecture at the hotel presented by a local expert on the rich history of architecture in Chicago including the work of Frank Lloyd Wright. Following the lecture, set off with our local architecture expert on our first walking field trip through the city, exploring the interesting history of one of the Loop’s most interesting architectural spaces. The Loop — named for elevated trains that loop this area in the heart of the business district — is an excellent place to begin our study of the city because it features many early examples of skyscrapers and an amazing array of public art. Following lunch at a local restaurant, board a motorcoach for Hyde Park, home of the University of Chicago and President Obama. Upon arrival, go on an expert-led exploration of Frank Lloyd Wright’s Robie House. Completed in 1910, this home is talked about as one of the most important buildings in American Architecture.

Day 3: Tuesday, May 28
Home & Studio Oak Park, Architecture Study Cruise
Board a motorcoach bound for historic Oak Park for an expert-led exploration of the first home and studio of Frank Lloyd Wright. Gain a deeper insight into Wright’s work and have an opportunity to travel around this historic neighborhood with an expert. Oak Park is renowned for having the greatest number of Wright-designed buildings. Following lunch at a local restaurant in Oak Park, return to the city and enjoy a study cruise to experience the spectacular skyline architecture of Chicago from the perspective of the Chicago River. The Chicago Fire of 1871 destroyed much of the city’s commercial property, which provided an opportunity for those who had the vision to merge structural steel and plate glass into vertical architectural wonders, thereby giving birth to the first skyscrapers. Through commentary provided by our on-board expert, gain a deeper understanding of the works of famous 19th- and 20th-century architects including Burnham, Jenny, Van der Rohe and Goldberg. Following dinner at a local restaurant, enjoy an evening of leisure.

Day 4: Wednesday, May 29
SC Johnson, Racine
This morning, check out of the hotel and depart for Racine, Wisconsin, to meet our local expert for an in-depth exploration of the work of Frank Lloyd Wright in Wisconsin. A local expert, author and award-winning journalist will join us. Next, visit the SC Johnson corporate headquarters in Racine, where the Administration Building and Research Tower were designed by Frank Lloyd Wright. The Administration Building is considered by many to be one of the 25 most important buildings of the 20th century. Known for its unique Great Workroom, the open work space features dendiform columns and circular “birdcage” elevators.

Day 5: Thursday, May 30
Frank Lloyd Wright in Milwaukee & Madison
Checking out of the hotel, board our motorcoach to Milwaukee, Wisconsin for an expert-led exploration of the American System-Built Homes (1912-1916), designed by Wright for low- and moderate-income families. Our next stop will be in Wauwatosa, where our own resident expert will lead an exploration of the Annunciation Greek Orthodox Church. Byzantine architectural forms are reinvented here to reflect a modern aesthetic. Wright began to design the Church in 1956, but he died prior to completion of construction. Lunch today will be on your own at the Milwaukee Public Market. Next, visit Milwaukee’s Art Museum led by a resident expert and see the various notable buildings nearby including the War Memorial Center designed by Eero Saarinen; the Kohn Pedersen Fox Collaborative building designed by David Kahler; and the newest structure, the white-winged Quadracci Pavilion designed by Santiago Calatrava. Continue from Milwaukee to Madison to see more of Frank Lloyd Wright’s work. On our way to the hotel for check-in, stop to look at Monona Terrace, located on the shore of Lake Monona. First proposed in 1938 as a convention center for the capital city, the project finally went forward in 1992 with the exterior designed by Wright and the interior based upon a design by Taliesin architect Tony Puttnam. Today, this beautiful space is home to conventions, private and civic events, often thrilling people with its beauty and stunning views of the lake, skyline and the dome of the state capital.

Day 6: Friday, May 31
Frank Lloyd Wright in Madison, Taliesin Estate
Our first stop this morning will be to the Jacob’s Usonian House on the west side of Madison with our local expert. Designed with the philosophy of form following function, the Usonian houses were built to relate to nature as if they emerged straight from the earth. Homes were built with natural materials, including wood, stone and baked clay. Just a short distance away, enjoy an expert-led exploration of the Unitarian Meeting House, considered to be one of the world’s most important examples of church architecture. Our next stop will bring us to the Taliesin Estate and the Frank Lloyd Wright Visitors Center, or “Gateway” to the estate, where the rest of the day will be enjoyed. Following lunch, explore the Frank Lloyd Wright Visitor’s Center and the 800-acre Taliesin Estate, which was Wright’s home for 48 years from 1911 until 1959. The estate features buildings that represent his work across his career as it served as a laboratory for architectural design and innovation. Tonight, enjoy our Farewell Dinner at a local restaurant.

Day 7: Saturday, June 1
Ride to Chicago, Program Concludes

Following breakfast, our motorcoach will depart the hotel in Middleton at 9 a.m. and return to the Hyatt Place River North in Chicago in the early afternoon for departure.
