Range Renovation Complete & New Shorter Tees Introduced

The driving range renovation that was undertaken in early February is now complete. While the range tee will be closed until April, the range is OPEN and a temporary tee is available at the front of the range. The renovation was undertaken as part of a continuing effort to improve the Furman Golf Club facility. The existing tee was removed then expanded from 9,000 square feet to 20,000 square feet and rotated slightly to the left to square up the tee area with the fairway. The expansion will help with tee conditions throughout the season allowing for more teeing area and much better grass coverage as areas of the tee will have more time to heal. Brand new high-tech mats will be installed at the front of the range for times when the range tee is closed for maintenance or frost.
