

# CIGNA 90 NOW MAINTENANCE DRUG LIST

## Fill your maintenance medications in a 90-day supply

Your plan includes a maintenance medication program called Cigna 90 Now<sup>SM</sup>. Maintenance medications are the medications you take every day to treat an ongoing health condition like diabetes, high blood pressure, high cholesterol and asthma. **With Cigna 90 Now, your plan will only cover maintenance medications if you fill them in a 90-day supply.\* You also have to fill these medications at a 90-day retail pharmacy in your network, or through Cigna Home Delivery Pharmacy<sup>SM</sup>.\*\***

Depending on your benefit plan, you're typically allowed up to three fills in a 30-day supply before you have to switch. At that time, if you haven't switched to a 90-day supply, your plan won't cover the cost of the medication.

This is the list of maintenance medications that have to be filled in a 90-day supply at a 90-day pharmacy in your network. This list is regularly updated and not all of the medications listed here may be covered by your specific plan. You should log into [myCigna.com](https://myCigna.com) or check your plan materials to learn more about the medications your plan covers. You can also use the Drug Cost tool to find a 90-day pharmacy in your network, estimate how much your medications may cost and view lower cost alternatives, if available.\*\*\*

You can also go to [Cigna.com/Rx90network](https://Cigna.com/Rx90network) to learn more about your network.

Together, all the way.®

**Cigna reserves the right to make changes to the Drug List without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.**

\* Some medications may be packaged in less than a 90-day supply. For example, three packages of oral contraceptives equal an 84-day supply. Please note that this is still considered a 90-day prescription.

\*\* Plans vary, so some plans may not include Cigna Home Delivery Pharmacy. Please check your plan materials for more information on what pharmacies are covered under your plan. You can also view a list of retail pharmacies in your network at [Cigna.com/Rx90network](http://Cigna.com/Rx90network).

\*\*\* Prescription savings may not be available for some medications. Prices are not guaranteed, nor is the display of a price a guarantee of coverage. Your costs and coverage may vary at the time you fill your prescription at the pharmacy, and pricing at individual pharmacies may vary. Your pharmacy may offer a special sale price on a specific medication which may be less than the price displayed here. Please consult your pharmacy.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.
